

Morningstar High Growth (90) Managed Account Portfolio

Performance Update | As of 31/12/2025

Risk Level: High
Inception: 1 July 2012
Investment Horizon: 9 Years

Management Fee: 0.60%
Indirect Costs: 0.13%

Investment Strategy

An actively managed diversified portfolio of securities across both growth asset classes such as Australian equities, property and global securities, and defensive asset classes such as cash and fixed interest securities. In general, the portfolio's long-term average exposure will be around 90% growth assets and around 10% defensive assets; however the allocations will be actively managed within the allowable ranges depending on market conditions.

Investment Objective: To achieve capital growth through investing in a diversified portfolio of predominantly growth asset classes, with a small proportion of defensive asset classes.

Performance Objective: To deliver outperformance of the asset weighted benchmark and additionally to aim to earn a rate of return that exceeds inflation by at least 4.5% per annum both over rolling 9-year periods.

Trailing Returns

	1mth (%)	3mth (%)	1yr (%)	3yr (% p.a)	5yr (% p.a)	7yr (% p.a)	10yr (% p.a)	Incp (% p.a)

*Investment performance is before tax and the post-fee return is after the standard management fee of 0.60% and indirect costs (both are inclusive of GST). Investment performance is shown from 01/07/2012 and represents modelled performance only and assumes income received is reinvested. An individual investor's performance will differ from the modelled performance depending on factors such as transaction timing, actual management fees, whether income is paid and any divergence from model portfolio weightings or holdings. The portfolio may include Funds (including Exchange Traded Funds) which charge management fees and these are an additional cost (captured within the indirect costs) to individual investors and impact their return.

**Prior to 1 October 2023, the portfolios were managed to a CPI benchmark only. The performance of the Asset Weighted Benchmark will be displayed from 1 October 2023.

***Effective 01/11/25, the benchmark is provided by Morningstar, Inc. Historical benchmark returns up to 01/11/25 will remain unchanged. Morningstar, Inc., operates Morningstar Indexes, which is a separate business unit to Morningstar Investment Management. Morningstar Investment Management is not involved in the construction, methodology, or maintenance of Morningstar Indexes.

^The CPI was not available for the current month at the time of creation of this report. CPI for the previous month has been used as a proxy for the current month. Please note the actual CPI for the current month may differ to the proxy used.

Investment Principles

Our search for quality & value never ends.

Our three investment principles inform every investment decision we make.

01 We champion investors.

We believe that if investors win, we all win.

We are independent minded which allows us to make investment decisions with the focus on helping investors meet their financial goals.

Investment decisions are made with the end investor in mind.

02 We take a fundamental approach.

We believe that fundamental factors, such as the quality of personnel and an investment's future earnings will drive results.

Powerful analytics and models are behind our research and portfolios, giving us the confidence to take a long-term perspective.

We stand firm behind our investment views, even if they are unpopular. This means being willing to ride out market volatility.

03 We believe that price matters.

We anchor on an investment's underlying intrinsic value rather than fleeting news, sentiment or momentum.

Focusing on the difference between price and intrinsic value enables investors to get more than they're paying for.

We also believe controlling costs helps investors build wealth by letting them keep more of what they earn.
