1 General information

These interim financial statements cover Morningstar High Growth Real Return Fund (the “Fund”) as an individual entity. The Fund was constituted on 27 March 2000 and was incorporated in Australia.

The Responsible Entity of the Fund is Morningstar Investment Management Australia Limited (“the Responsible Entity”). The registered office of the Responsible Entity is Level 3, International Tower 1, 100 Barangaroo Avenue, Barangaroo, Sydney NSW 2000.

On 5 May 2016, the Attribution Managed Investment Trust (“AMIT”) regime, applying to Managed Investment Trusts was enacted under the Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016. The Attribution Managed Investment Trust (“AMIT”) regime allows MITs that meet certain requirements to make an irrevocable choice to be an AMIT. With its introduction, the Responsible Entity has amended the Scheme’s Constitution to allow the Scheme to operate as an AMIT, effective from 1 July 2017. The Responsible Entity is therefore no longer contractually obligated to pay distributions, however it is obligated to attribute taxable income to Unitholders for each financial year.

The financial statements of the Fund for the half-year ended 31 December 2023 were authorised for issue by the directors on 12 March 2024. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Basis of preparation and significant accounting policies

The accounting policies applied in these interim financial statements are the same as those applied to the Fund's financial statements for the year ended 30 June 2023.

(a) Basis of preparation

This general purpose interim financial report for the half-year ended 31 December 2023 has been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. The financial statements have been prepared in accordance with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board.

The half-year financial report does not include all notes normally included within the annual financial report and therefore cannot be expected to provide a full understanding of the financial position and financial performance of the Fund as that given by the annual financial report. As a result, this financial report should be read in conjunction with the most recent annual financial report of the Fund and any public announcement in respect of the Fund during the half-year.

The interim financial statements have been prepared on a historical cost basis, except for investments in financial assets and financial liabilities which have been measured at fair value.

Accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the Fund's annual financial report for the financial year ended 30 June 2023.

The interim statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for financial assets and liabilities at fair value through profit or loss. The amount expected to be recovered or settled within twelve months in relation to these balances cannot be reliably determined.

The financial statements are presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000) unless otherwise stated under the option available to the Fund under ASIC Corporations Instrument 2016/191.

The Fund is for-profit entity for the purposes of preparing financial statements.

(b) Changes in accounting standards

The Fund has adopted all mandatory standards and amendments for the half-year beginning 1 July 2023. Adoption of these standards and amendments has not had any material effect on the financial position or performance of the Fund.

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial half-year beginning 1 July 2023 that would be expected to have a material impact on the Fund.

3 Financial risk management

(a) Fair Values of Financial Assets and Liabilities

Financial assets and liabilities held at fair value through profit or loss.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value excluding any transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Subsequent to initial recognition, all financial assets and financial liabilities held at fair value through profit or loss are measured at fair value. Gains and losses arising from the changes in the fair value are presented in the statements of comprehensive income within 'Changes in fair value of financial instruments at fair value through profit or loss' in the period in which they arise.

- Fair value in an active market

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets are priced at current bid prices, while financial liabilities are priced at current asking prices.

- Fair value in an inactive or unquoted market

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used in a market rate at the reporting date applicable for an instrument with similar terms and conditions.

Where other pricing models are used, inputs are based on market data at the reporting date. Fair values for unquoted equity investments are estimated, where possible, using applicable pricing/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issue.

The fair value of derivatives that are not exchange-traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the reporting date taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as the net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Investments in other unlisted investment funds are recorded at the redemption value per unit as reported by the managers of such funds.

(b) Fair value hierarchy

The Fund classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgment by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

3 Financial risk management (continued)

(b) Fair value hierarchy (continued)

The table below sets out the Fund's financial assets (by class) measured at fair value according to the fair value hierarchy at 31 December 2023 and 30 June 2023.

As at 31 December 2023	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial Assets				
Financial assets held at fair value through profit or loss:				
Derivatives	200	481	-	681
Unlisted unit trusts	-	82,923	-	82,923
Listed unit trusts	<u>4,625</u>	<u>-</u>	<u>-</u>	<u>4,625</u>
Total	<u>4,825</u>	<u>83,404</u>	<u>-</u>	<u>88,229</u>
As at 30 June 2023	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial Assets				
Financial assets held at fair value through profit or loss:				
Unlisted unit trusts	<u>-</u>	<u>84,415</u>	<u>-</u>	<u>84,415</u>
Total	<u>-</u>	<u>84,415</u>	<u>-</u>	<u>84,415</u>

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed unit trusts, active listed equities, exchange traded derivatives, currency contracts, money market securities, government bonds and listed corporate debt.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include certain unlisted corporate debt and floating rate notes, warrants, swaps, certain unlisted unit trusts, and certain listed equities. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non transferability, which are generally based on available market information.

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the year.

The Fund recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the transfer has occurred.

There were no transfers between levels for recurring fair value measurements during the half-year ended 31 December 2023 (30 June 2023: Nil).

Redemptions	<u>-</u>	<u>-</u>	<u>(4)</u>	<u>(4)</u>
Closing balance	<u>4</u>	<u>4</u>	<u>4</u>	<u>4</u>

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right in the underlying assets of the Fund. There are three classes of unitholders in the Fund being Class A; Class B; and Class Z.

(b) Capital risk management

The Fund manages its net assets attributable to unitholders as capital, notwithstanding net assets attributable to unitholders are classified as a liability. The amount of net assets attributable to unitholders can significantly change on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unitholders.

Management monitors the Fund's redemptions and assesses the impact of requests for large redemptions on remaining unitholders. Where the impact is significant, management may decide to pay a special distribution and/or may delay payment of the redemption amount.

Independent Auditor's Review Report to the unitholders of Morningstar High Growth Real Return Fund

Report on the Half Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Morningstar High Growth Real Return Fund (the "Scheme"), which comprises the statement of financial position as at 31 December 2023, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a statement of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Scheme does not comply with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Scheme's financial position as at 31 December 2023 and of its financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the Auditor's responsibility section of our report. We are independent of the Responsible Entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' responsibility for the Half-Year financial report

The Directors of the Responsible Entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Scheme's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

**Building a better
working world**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
